ST-Cloud

Upgrade to the ST-Cloud and remove that PC from your storage

- Plug and Play
- Easy Installation
- Dedicated device for Stor-Trac Bin Monitoring Software
- Upgrades managed by Techmark

ST-Cloud is a 4x4 mini-PC that supports up to 64GB of high speed RAM and up to 16TB of storage while keeping a minimal footprint and low power usage.

Minimize downtime and focus on managing your storage instead!

ST-Cloud supports Stor-Trac by providing a dedicated device with no automatic software or hardware updates to cause unexpected interruptions. Techmark handles the installation and will push any updates to the software.
