

Techmark, Inc.

technology from the ground up

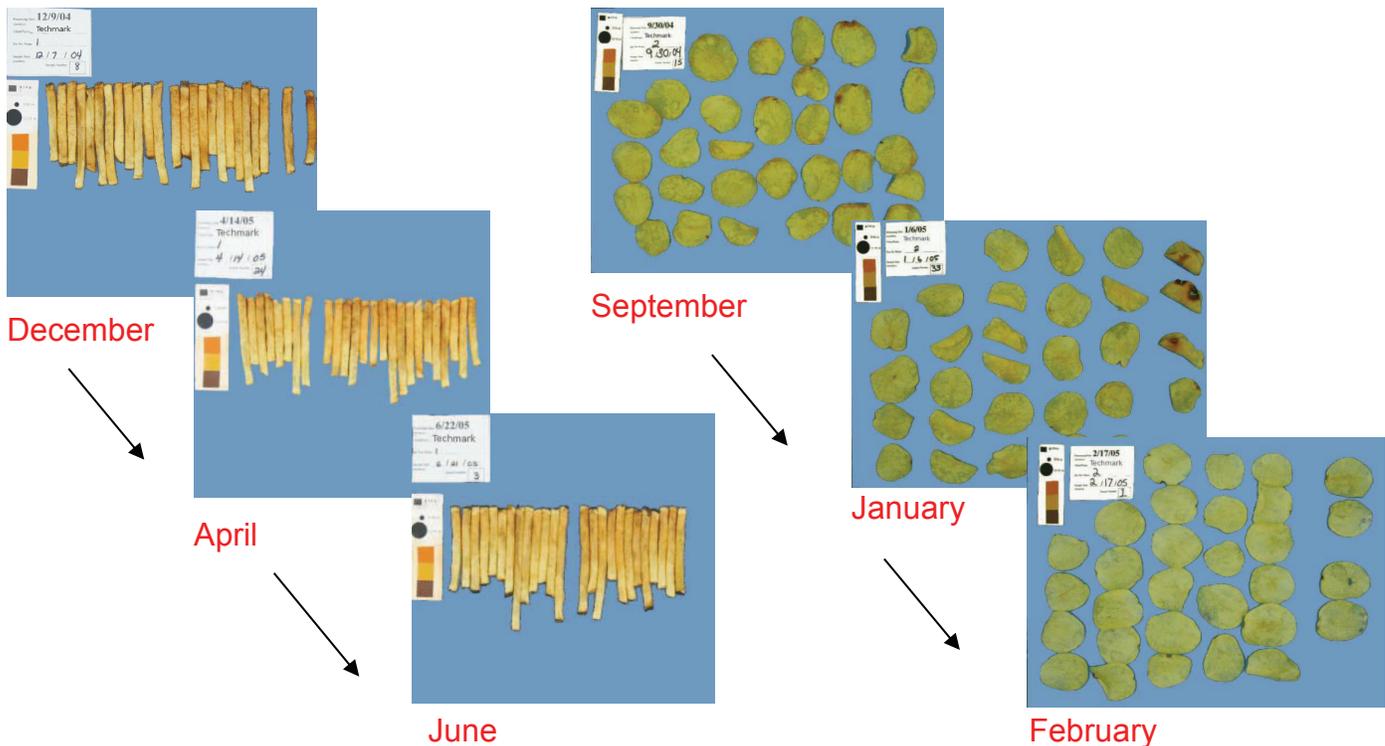

Laboratory Services

Techmark offers potato quality analysis through sugar analysis and fry quality testing. The laboratory offers Glucose and Sucrose analysis, defect scoring with digital image collection, specific gravity and count and weight by size. Techmark can also offer customized sampling procedures based on your organizations needs.

Online access to reports and images of fried product. Our web-based portal allows your team to access important storage data from any internet connection.

Laboratory analysis is a great tool for your storage management plan.
